NUMBER 168

## MISSOURI DENTISTS RESPOND TO NATION

Major Harper Says About  
500 Have Enlisted in  
Reserve Corps.

AT HOOVER DINNER

Patriotism Is Keynote of  
Doctor Gallic's Talk—  
View Cadet Drill.

"There are approximately 500 dentists in the dental reserve corps in Missouri," said Major J. P. Harper, dean of the Dental School of St. Louis University, in speaking of the response of Missouri dentists to the war. "Missouri has made a splendid showing."

According to Major Harper, of the 500 dentists in the corps in the United States, 2,500 are on active duty. With the close of the spring term, dental schools in the various states will graduate about 2,000 students, who will be immediately subject for service. Students dental schools are given the same deferred classification as medical students, and, upon graduation, are placed in the reserve corps subject to call whenever a new increment of troops renders it necessary. Army regulations call for one dentist for every 1,000 soldiers.

"A sufficient number of dentists," says Major Harper, "have responded to care for an army of 5,000,000."

Dr. D. M. Gallic Says "Stand Pat."

About 200 members and their wives attended the Hoover banquet last night in the Mulberry room of the Daniel Boone Tavern. The presence of the wives of the members was a new feature of this year's banquet. There were seven courses.

After the banquet Dr. Donald M. Gallic of the University of Illinois gave a talk. His subject was "Stand Pat." Patriotism was the keynote. He related some of the atrocities perpetrated by the Germans in Belgium and France. Doctor Gallic said that members of his own family who were in Europe at the outbreak of the war had witnessed all the atrocities of which he had spoken. He appealed to the women to make greater sacrifices.

Last night's banquet, according to an officer of the dental association, was one of the best and largest that the association has ever held. Dr. D. D. Campbell, president of the association, presided.

Dentists Discuss Use of Gold.

The use of gold in dentistry was the subject of this morning's program at the convention of the Missouri State Dental Association at the Daniel Boone Tavern. The following papers were given: "Gold Inlay and Casting" by Dr. H. M. Mortenson, Milwaukee, Wis.; "Gold Foil Versus Gold Inlay" by Dr. Guy B. Baird, Fremont, Neb.; "Technique of Making Gold Inlay" by Dr. L. B. Morris, Denver, Colo.; and "Casting Gold Inlay—Indirect Methods," Dr. W. A. Caston, Topeka, Kan.

During the noon hour there were various fraternal luncheons. The program of the afternoon was devoted to clinics. Demonstrations were given by the lectures of the morning.

The entertainment committee of dentists has provided a number of automobiles to give the women who are attending the convention a trip and view of Columbia. At 4:30 o'clock they stopped at the West Campus to see the cadets drill.

At 8 o'clock this evening papers on "Dental Sepsis in Relation to Disease" will be given by Dr. A. Sophian of Kansas City, and "Discussion of Infection and Immunity" will be given by Dr. Dan G. Stine of the University. There also will be a general discussion.

WITH THE DENTISTS

Dr. A. A. Justice of Lancaster was a student in the University from 1900 to 1902. "I go to a dental convention every chance I get," said Doctor Justice.

Dr. J. D. Patterson of Kansas City has not missed a convention since 1875, except when he was in Europe in 1901. This is his first visit to Columbia. He is much pleased with the town, he says.

Dr. James Howell of Kansas City, former president of the Missouri State Dental Association, said this was his first trip to Columbia. "But it won't be my last one," he said.

Dr. J. D. White of St. Louis is also a former president of the Missouri State Dental Association. "I have been in Columbia once before to see the Missouri Tigers wallop Washington in football," said Doctor White.

Dr. A. W. Frost of Booneville and Dr. H. B. Hammond of Shelbyville arrived in Columbia this morning to attend the convention.

Dr. Elwang P. Brady, professor of chemistry in Washington University, is attending the convention. He hasn't missed a meeting for fourteen years.

Dr. Dayton D. Campbell, president of the Missouri Dental Association,

## IN NATIONAL SERVICE

Ensign J. C. Schwabe, Jr., son of Mr. and Mrs. J. C. Schwabe of 12 College avenue, is now stationed at the United States Naval Air Station, Rockaway Beach, L. I. He enlisted in the naval air reserve last April and was ordered to Pensacola, Fla., where he began his training. From Florida he was sent to Akron, Ohio. Ensign Schwabe received his commission last December and was then ordered to Long Island. Before entering national service he was a student at Westminster College. He is a graduate of the Columbia High School.

who is always enthusiastic, said: "Columbia is an ideal place to hold a convention. It is a live wire."

The Denver Chemical Manufacturing Company, manufacturer of Antipholistine, has an exhibit of its product on the main floor lobby.

W. J. Brennaun, representing Horlick's Malted Milk Company, manufacturer of the "original malted milk," is proving that his company's product is not only for infants but is also good for adults.

There are two X-Ray machines on exhibit. One, made by the Campbell X-Ray Company of Lynn, Mass., operated by James W. Craig, was kept busy this morning taking dental pictures of visitors. Ralph E. Mowen, general representative of H. G. Fischer & Co. of Chicago, declares that their X-Ray machine is the only one having a cooling tube and that it is the most sanitary one on the market.

The Charles H. Phillips Chemical Company of New York and London put up an exhibit this morning of Phillips' Milk of Magnesia, Phospho-Muriate of Quinine, Cod Liver Oil Emulsion and Digestible Cocoa.

W. A. Rosenthal and an assistant, representing the Victor Electric Corporation of Chicago, manufacturers of the Victor Transformer, arrived yesterday, but their transformer, shipped from Chicago March 15, has not come.

The Platitric Chemical Company of St. Louis, featuring the Platitric Silver Nitrate Treatment for root canals, is showing a complete assortment of teeth, kept in small bottles of preservatives, representative of various dental troubles.

## MRS. LULA S. ROBERTS DIES

Succumbs to Tuberculosis at the Home of Her Parents.

Mrs. Lula S. Roberts, 23 years old, died of tuberculosis today at the home of her parents, Mr. and Mrs. A. Cathey, 801 Tandy avenue. The funeral services will be conducted by the Rev. A. B. Coffman, at 3 o'clock tomorrow afternoon at the Wilkes Boulevard Church. Burial will be in the Columbia Cemetery.

Mrs. Roberts is survived by a daughter, Dorothy, 3 years old, her mother, father and three brothers. The sisters are: Mrs. Nora Turnbaugh, Mrs. Ella Coats and Miss Anna Cathey; the brothers: Ray, Harry and J. P. Cathey. Her husband died in Centralia three years ago.

## RED CROSS AUXILIARY OPENS

University Women Will Begin Work Thursday in Academic Hall.

The University Women's Council has voted to organize a Red Cross auxiliary where University girls may go and spend their spare time in making surgical dressings. The following officers of the Auxiliary have been elected: President, Miss Nita Collier; secretary, Miss Edith Galtman; treasurer, Miss Olive Hawkins. The officers, with the help of Dr. Eva Johnston, have secured Room 215 Academic Hall in which to conduct the work. Beginning Thursday, it will be open from 9 to 12 and 2 to 4 daily, except Saturday and Sunday. University women are especially urged to spend as much of their time in that work as is possible.

## Miss Mary Edith Davis to Marry.

The first April marriage license for this year in Boone County was issued today to Miss Mary Edith Davis, 15 years old, and William H. Bennett, 15 years old, both of Columbia.

## DRAFT QUOTA OF 11 LEAVES FOR FUNSTON

Only Ten Were Called But  
Another Wanted to  
Report.

ALL ARE WHITE MEN

90,000 Are Now on Way to  
Training Camps in  
Country.

The men called for from Boone County's draft quota, in a special call, left at 10:50 o'clock this morning for Camp Funston. Ten men were asked for, but eleven went. This was because H. R. Nichols, who was in North Dakota when the notice reached him, appeared unexpectedly a few days ago saying that he wanted to go.

The men who left this morning are: James L. Sims, Hartsburg. Shannon D. Hawkins, Columbia. Francis C. Conley, Columbia. Charles E. Northcutt, Columbia. Roy McKissick Eldorado, Kan. William E. Daly, Columbia, R. F. D. 2. Herman F. Lichte, Hartsburg. Roy E. Merrell, Clark. Columbus W. Irvine, Centralia. Berry W. Burton, Sturgeon. Hollis R. Nichols, Ashland. Charles E. Northcutt, who had been principal of a school at Booneville, was in charge of the men.

The total number of men going at this time to the different draft camps in the country is 90,000. Only white men are being called in this draft. Harry S. Jacks, clerk of the draft board, said this morning that Boone County would get credit, as soon as credit is given, for the 100 registered men who have enlisted.

The physical examination of all men in Class I will be made as rapidly as possible. About forty men have been notified to appear for examination at the courthouse tomorrow and another group will be examined Saturday. About twenty-five will be examined every day next week. Mr. Jacks said that thirty men were examined to get the eleven who left today, but that most of these had been rejected before under the stricter rulings. Of the twenty-five examined since then, twenty passed.

## BOYS FOR THE FARMS

An Enrollment for Youths'  
Working Reserve Will be  
Made Next Week.

How many boys between the ages of 16 and 21 in Boone County are loyal enough to enroll in the United States Boys' Working Reserve?

The United States Government wants to know how many boys between those ages are working, or are willing to work, in the production of food essential to winning the war. Every boy between the ages of 16 and 21 is asked to become a member of the United States Working Reserve. Boys who are working on farms and those who are not working, but who are willing to work in the production of food, are urged to enroll. The boy who works for his father without pay is entitled to as much honor as the boy who works for wages and he, too, is expected to enroll.

In order that the enrollment in Boone County may be made quickly and in a way that will give every boy a chance to signify his willingness to work on the farm, the Government has appointed men in the various towns of the county to take charge of enrollment. Enrollment will be during the week beginning April 8 at the following places:

Columbia, John L. Henry, Recorder's Office, Courthouse.

Centralia, Woodford Settle, Jr., Farmers' and Merchants' Bank.

Sturgeon, W. Hunter Price, Sturgeon Leader.

Ashland, T. E. Whitfield.

Rochester, J. C. Hall, People's Bank.

Hallsville, Earl Dysart, Bank of Hallsville.

Harrisburg, H. S. Whitesides, Bank of Harrisburg.

Hartsburg, B. W. Busch, Bank of Hartsburg.

J. T. Mitchell, director of the Boys' Working Reserve for Boone County, says he is confident that the boys of Boone County are eager to do their best for Uncle Sam and expects them to go "over the top" in this enrollment April 8 to 13.

## Few Student Petitions Still Out.

Petitions of recommendations for councilmen have not as yet been received from the School of Education and the School of Law. Recommendations for the Board of Directors for the Missouri Union have not been received from any of the schools except the College of Agriculture and the School of Commerce and Public Administration. Friday has been set as the time limit in all these petitions.

## Carpenter Faints on Street.

S. Y. Lancaster, a carpenter living at 999 Wilkes boulevard, became ill and fainted in front of the courthouse this morning. A doctor was called, and Mr. Lancaster was taken to his home. He was reported somewhat better this afternoon.

## DISLOYAL CITIZENS MUST BE CAUTIOUS

Senate Judiciary Committee  
Adopts Twenty-Year,  
\$10,000 Penalty.

SHOW NO FAVORITISM

Drastic Measure to Be Used  
On Obstructors of Bond  
Sales or Enlistments.

By Associated Press.

WASHINGTON, April 2.—In a favorable report on the bill to impose drastic penalties on disloyal actions, the Senate Judiciary Committee today adopted an amendment calling for the imprisonment for twenty years and \$10,000 fine "for whoever by word or act supports or favors the cause of Germany or its allies in the present war, or by word or act opposes the cause of the United States."

The committee approved the same penalties for persons obstructing war-bond issues, and willfully attempting to obstruct recruiting and enlisting in the army.

## Mysterious Epidemic in Ford Plant.

By Associated Press.

DETROIT, April 2.—Officials of the Ford Motor Company today confirmed the reports that 200 men have been affected daily with a mysterious epidemic resembling the grip, which is prevalent in the plant. It is estimated that 2,000 of the employees have been ill.

## War Delivery Division Is Created.

By Associated Press.

WASHINGTON, April 2.—Creation of a requirements division which will establish the priority of delivery of war materials was announced today by the War Industries Board. The division will eliminate competition among the Government departments in obtaining supplies.

## DOCTOR PICKARD IS HONORED

Elected President of College Art Association for Fifth Time.

Dr. John Pickard, professor of classical archaeology and history of art in the University was elected president of the College Art Association of America for the fifth successive time at the seventh annual meeting of the association which was held last Thursday, Friday and Saturday in the Metropolitan Museum at New York City.

John Shapley, a graduate of the University and a former assistant of Professor Pickard, was elected secretary-treasurer. The meeting, according to Doctor Pickard, was the most important ever held by the association; the attendance was larger than ever before, and the discussions were more vital. Several collections of art not ordinarily open to visitors were shown to the association. The collections of George Blumenthal, which have never been open to a gathering of people were perhaps the rarest things seen.

## CHECK TWO ATTACKS

British and French Advance  
—Stop Enemy's Efforts  
to Regain Ground.

By Associated Press.

BRITISH ARMY HEADQUARTERS IN FRANCE, April 2.—The British stormed strongly-held German positions in a wood along the Luce River yesterday. When the enemy withdrew after sharp fighting the ground was strewn with dead. The Germans shelled the wood after the occupation of the wood by the British, and organized two counter attacks for the purpose of reentering the wood, but they were caught in a British artillery barrage and broken.

## British Take Fifty Prisoners.

By Associated Press.

LONDON, April 2.—In the sector between the Avere and the Luce Rivers yesterday the British took fifty prisoners, the War Office announces. Thirteen machine guns were captured. Near Acbuerne the British made a successful attack, capturing machine guns and prisoners. A German counter attack was repulsed.

## Allied Troops Advance.

By Associated Press.

PARIS, April 2.—French and British troops advanced last night between the Somme and Demuin. Over most of the front between the Somme and the Oise the night was relatively calm. Heavy artillery fighting occurred at some points.

## MISS ROSE ARMSTRONG ILL

Columbia Girl Undergoes Operation in St. Louis.

Miss Rose Armstrong was operated upon this morning at Barnes Hospital in St. Louis, according to word received in Columbia. She is now in a critical condition. Her parents and her brother, who is in training at Fort Sill, are in St. Louis with her.

Miss Armstrong is the daughter of Mr. and Mrs. T. F. Armstrong of 1216 Hudson avenue. She is a junior in the School of Education of the University.

## THE WEATHER

For Columbia and Vicinity: Rain tonight and Wednesday, probably turning to snow Wednesday. Much colder; temperature near the freezing point Wednesday morning. Winds shifting to strong north-northwesterly.

For Missouri: Probably rain turning to snow tonight and Wednesday. Much colder. Strong north to northwest winds. Shippers' Forecast: Within a radius of 300 miles of Columbia the lowest temperature during the next 36 hours will be North 24; East and South 35; West 28.

Weather Conditions.  
During the past 24 hours a heavy rain fell at Cairo, Ill., New Orleans, La., and Jacksonville, Fla. Light to moderate rains have been general over Illinois, and Kentucky, parts of Ohio, and Indiana. Snow has fallen in Minnesota, and at 7 a. m. this morning snow was falling heavily over the Dakotas, Wyoming, and Montana.

The weather has changed from spring to winter in most of the territory west of the Mississippi and north of the Missouri. From Missouri and Kansas south and east mild weather still prevails but will change to cold during the next 36 hours.

A low pressure wave covers the lower Plains, central in Kansas. Paralleling it to the north is a high pressure wave, also traveling east. The combination will likely result in much colder weather in Missouri during the next 36 hours, probably with rain and snow.

Local Data.  
The highest temperature in Columbia yesterday was 79; and the lowest last night was 56. Rainfall 0.00. Relative humidity noon yesterday was 49 per cent. A year ago yesterday the highest temperature was 62 and the lowest was 35. Rainfall 0.00.

(Summer Time) Sun rose today, 6:52 a. m. Sun sets 7:33 p. m. Moon rises 1:09 a. m.

## The Temperatures Today.

7 a. m.	56	11 a. m.	71
8 a. m.	57	12 noon.	75
9 a. m.	60	1 p. m.	78
10 a. m.	66	2 p. m.	79

## GUN HAMMERS PARIS

Eighth Bombardment by  
Long Range Gun in Progress Today.

By Associated Press.

PARIS, April 2.—The eighth bombardment of Paris by long-range guns began today.

Lieutenant General Von Rohne, a German authority on ordnance and inspector of artillery, gives in a magazine of which he is editor additional details in regard to the long distance German guns with which Paris is being bombarded, says an Associated Press dispatch from Switzerland. He says they are twenty meters (sixty-five and one-half feet) long. The empty shell weighs 150 kilograms (330 pounds) and the charge weighs the same. The projectile attains a height of thirty kilometers (18.6 miles) and descends from the sky like a meteor on its target.

General Von Rohne says it requires about three minutes for the shell to reach its destination. The greatest difficulty in the way of increasing the range was overcome by sending the projectile high enough to reach the rarified air.

It appears the Germans are extremely proud of the bombardment of Paris.

A Paris dispatch says no unexploded shell from a gun bombarding Paris has thus far been found. However, there have been examined in the municipal laboratory fragments of sufficient size to permit the directors to reach certain conclusions. They are of the opinion that a double fuse is used and that the guns fire 210 millimeters (8 1/4-inch) shells.

Apparently four guns are being used, two on each alternate day. The tubes of the guns, which are rifle guns, are more than sixty feet long. The installation and adjustment of the guns must require at least three months. Doubtless they are concealed under mountains of cement, rendering it most difficult to locate and destroy them.

## MARCH DRIEST SINCE 1910

And Before That Since 1890—Also Is Warmer Than Usual.

Last month was the driest March since 1890, save the one of 1910. All the year 1918 has been drier than is normal, and up to April 1, we had an accumulated deficiency of rain amounting to 5.45 inches. The normal precipitation for March is 3.03 inches, and we had only .64 inches.

March this year was also warmer than usual. The average mean temperature was 50.9 and it has not been as high as that since 1910, when it was 56. The highest temperature this month was 90 on March 13; the lowest was 19 on March 10.

There were sixteen clear days in March, eight partly cloudy and seven cloudy ones. There were 278.7 hours of sunshine during the entire month. Crops are said to be in good condition, but they need rain, which the Weather Bureau prophesies they will have in a few days.

## Eight Weeks More of School.

The last holiday of the school year at the University ended this morning. The final examinations for the second semester begin May 25 and close June 1. The Baccalaureate address will be given Sunday, June 2, and Commencement Day will be June 5. No announcement has been made as to who will give the Baccalaureate or Commencement Day addresses.

## Library Club to Meet.

The Library Club will meet Thursday to make out circulation cards for the books which have been collected for the soldiers and sailors. There are now 948 books in the collection.

## GERMAN DRIVE AIMED AT ARRAS AND VIMY

Units of Eleven Divisions  
Engaged in Far-Reaching  
Attack That Failed.

SUFFER HEAVY LOSS

Each Man Carried Rations  
for Six Days, Extra Blankets  
and Shoes.

By Associated Press.

BRITISH ARMY HEADQUARTERS IN FRANCE, April 2.—The German attack along the Scarpe River March 28 had as its objective Arras and Vimy Ridge. The attacks were supported by heavy assaults south and southwest of Arras, units of at least eleven German divisions being employed.

The German plans were far-reaching, but the main result was a swelling of the total casualties.

About 3 o'clock on the morning of March 28, the German artillery opened a terrific bombardment against the British positions. It was obvious that the enemy intended to attack, and at 6:40 o'clock British guns loosed an avalanche of steel against every place where German troops might be assembling.

Shortly after 7 o'clock, the enemy advanced. They came forward slowly in full marching order. Each infantryman carried six days' rations, two blankets and an extra pair of boots, indicating that the attack was in earnest. Company commanders were mounted. The infantry was followed closely by the artillery.

In the extreme north, the storm center was at Gavrelles and Appy, the Germans pivoting on Appy. The Germans lost terribly in the heavy fighting which lasted all day.

The British fell back to a line between Bailluel and Willerval. The German attacks against these positions were futile, whereas north of the river the British pushed forward a little, Friday and Saturday.

South of the Scarpe, the Germans were held up for a time by the division which was engaged against them the previous week. After the first day, the division retired somewhat and later was compelled to fall back behind Neuville-Vintasse, because of pressure to the south.

## GERMAN ORDER IS FOUND

Three Battalions Ordered to Advance on Objective Regardless of Losses.

By Associated Press.

OTTAWA, Ontario, April 2.—A German order captured on the battlefield, Reuters's correspondent, telegraphing from France, says, describes the order of battle of a German division in the present offensive.

"The division advances in two regimental groups, progressing side by side. The first line of each group consists of the first regiment of three battalions of infantry, whose task it is to advance straight upon the objective, regardless of losses, leaving the work of reaching centers of resistance to special detachments which follow.

## NEW CITY OFFICIALS NAMED

Some Interest Shown in School Board Election.

Councilman, First Ward (long term)—George W. Barkwell.  
Councilman, First Ward, (Short Term)—H. R. Jackson.  
Councilman, Second Ward (short term)—J. Guy McQuitty.  
Councilman, Third Ward—Dr. C. L. O'Bryan.  
Councilman, Fourth Ward—Joseph Somerville.  
City treasurer—Horace C. Smith.

With only one ticket in the field the results of today's election will be merely a confirmation of the nominations of the Democratic primary. Those on the foregoing ticket will be named.

Election judges in every ward report an extremely light polling of votes. In the Third Ward only twenty votes had been cast at 2 o'clock. The First Ward reported the heaviest vote. Sixty-two votes had been cast by the middle of the afternoon. One judge of the Second Ward said that sixty-three votes were cast in that ward last year, but a lower vote was expected this year.

Interest in the school election has exceeded that shown in the city election, the election officials say. The candidates for the board of directors of the Columbia School District are: S. F. Conley, F. W. Niedermeyer and Dr. J. E. Jordan. Two must be elected. In each ward the school ticket is running somewhat ahead of the city ticket. This is because the school board ticket may be voted upon from any ward in the city. Many do not care to take the trouble to walk out to the polling place in their own ward. The polls close at 6 o'clock tonight.

## Miss Lorna Linton Injured.

Miss Lorna Linton, one of the young women who was attacked by an unknown man in Kansas City Monday night and seriously injured, is a sister of James Linton, a former student in the University. Miss Linton is a nurse in Christian Church Hospital. She has visited in Columbia several times.
